DIRGAHAYU TNI ANGKATAN UDARA

REPUBLIK INDONESIA

09 APRIL 2022

Dear Readers,

We present to you the fourteenth edition of Indonesian Defense Magazine, opening our third year of publication in a somber atmosphere of tragic loss, exhausted reporters all over international news recount the number of dead Ukrainian civilians and Russian soldiers. Images of burning vehicles and bombed out homes cover the TV screens. Thousands of people fleeing toward an unknown future, holding on to their families and suitcases. History repeating itself like a worst nightmare.

During a press conference at Defense Minister Prabowo's overseas visit, he made it clear that Indonesia's stance, as mandated by the 1945 constitution, urges all conflicted parties to bring forward negotiations and diplomacy to prioritize peaceful resolutions.

In this edition we present a special report on a Leadership Meeting (Rapim) series hosted the Indonesian Ministry of Defense followed by Indonesian Military-National Police as well as Indonesian Army, Navy, and Air Force. Those meetings hold essential roles in formulating varied defense policies in which comply with the Total People's Defense and Security System (Sishankamrata) and the government policies.

One of the most important and significant event reported by IDM in this edition is coverage of a pivotal moment in Indonesia's air defense power in MoD Agreement. Indonesian Ministry of Defense officially signed a contract to procure 6 Rafale fighter jets with the acquisition of 36 more on the way.

We take a look at Minister of Defense Prabowo Subianto's activities engaging in a number of official visits to conduct defense diplomacy with his counterparts, starting with Saudi Arabia before embarking on his visit to Greece, France, and the United Arab Emirates (UAE) with the agenda to intensify defense cooperation, with emphasis in the defense industry sector.

We also feature an in-depth interview with defense analyst, Khairul Fahmi, in which he emphasizes the acceleration and modernization of primary weapons systems having a good impact to bolster our defense posture and deterrent effect.

We truly hope you enjoy reading IDM. Let us spend a moment and time to pray for all the people dying in Ukraine, and for the earth's continuing survival, and that this war will soon come to an end.
