Dear Readers

Greetings and welcome to this, the 17th edition of Indonesia Defense Magazine (IDM). The decision to embark on the publication of IDM, three years ago, corresponded to a new wave of awareness in Government circles of the rapidly evolving nature of national defense, both in terms of technology and strategy, and the need to upgrade the protection of our vast, 17,000 island archipelago.

Readers will also be aware that we are currently caught in the strong crossflow of competition between the West and a resurgent People's Republic of China, which has used its recently-acquired wealth to reinforce its own military projection, particularly in terms of building a blue-water navy, practically from scratch.

Indonesia has traditionally taken a true diplomatic approach to potentially troublesome military alliances, preferring instead to have "…a thousand friends and not one enemy…" in its international dealings. Nevertheless, the need arises to impose stronger control over borders, intercept and prevent narcotics, people-smuggling, piracy and other criminal activities on the high seas, and set a firm profile as a proud Republic that will not tolerate incursions like illegal fishing, an act of piracy that has impoverished many of our local fisherfolk.

In this edition of the Indonesia Defense Magazine we highlight A Special Report on Super Garuda Shield (SGS) 2022, the cornerstone of the military partnership between the United States and Indonesia, officially kicked off on August 3, now one of the biggest joint, multinational exercises in the Indo-Pacific region.

Under the ideological banner of Bela Negara, realizing Total People's Defense through the National Reserve Component (Komcad), the Ministry of Defense pressing ahead with it's plan to recruit some 25.000 reservists, VP Ma'ruf Amin accompanied by Minister of Defense Prabowo Subianto officiates 2.974 new recruits - after undergoing 3 month of basic military training - at the Special Forces Training and Education Center (Pusdiklatpassus), Batujajar, West Java.

In a conversation with Colonel Paul Reynolds, British Defense Attache, he elaborates AUKUS's Establishment to Maintain the Stability in the Indo-Pacific Region. Finally, an Interview with Commander of the National Air Operation Command Air Marshal TNI Andyawan Martono completes this 17th edition of IDM.

Have an enjoyable read.

Super Garuda Shield 2022 merupakan pengembangan dari latihan bilateral antara TNI Angkatan Darat (AD) dengan Angkatan Darat Amerika Serikat (US Army) dan menjadi salah satu latihan multinasional gabungan terbesar di kawasan Indo-Pasifik. Dalam sambutannya, Andika mengatakan Latgabma SGS 2022 berbeda dengan tahun lalu karena melibatkan tiga matra sekaligus. "Karena itu, latihan bersama pada tahun ini pun dinamakan Super Garuda Shield karena melibatkan seluruh matra TNI," kata Andika.

Perkuat Interoperabilitas dan Rasa Saling Percaya

Latgabma SGS 2022 digelar dengan tujuan memperkuat interoperabilitas, kemampuan personel, rasa saling percaya, dan kerja sama yang telah dibangun dari pengalaman bersama selama beberapa dekade, serta menciptakan komunikasi antar personel negara dan personel latihan dalam suatu operasi.

Berbicara kepada wartawan seusai acara pembukaan, Commanding General United States Army Pacific (USARPAC) General Charles A. Flynn mengatakan, latihan bersama antar-militer ini bukan hanya memperkuat hubungan antar negara yang terlibat, tetapi sekaligus menjaga stabilitas kawasan. "Saat kita bersama, kita akan menjadi lebih kuat, menjadi kekuatan multinasional. Garuda Shield adalah wujud penting dari kerja sama, interoperabilitas dan semangat persatuan dari sebuah kelompok negara yang mempunyai keinginan untuk menciptakan wilayah Indo-Pasifik yang bebas dan terbuka serta menjaga tatanan yang berdasarkan aturan," kata Flynn.

Sementara itu, Komandan Divisi Infanteri ke-7 dan Ketua Pelaksana Super Garuda Shield 2022 Mayor Jenderal Stephen Smith mengatakan, dirinya menyambut baik kesempatan untuk berlatih bersama mitra-mitra Amerika Serikat. "Latihan yang dikomandoi Indonesia ini telah berkembang secara lingkup dan skala. Perkembangan ini menunjukkan pentingnya latihan ini dan bagaimana negara-negara peserta memandang area ini sebagai area yang berpengaruh di kawasan Indo-Pasifik," ujar Smith.

Pengerahan Ribuan Personel

Latihan ini diikuti oleh sekitar 5.069 personel yang berasal dari sejumlah negara seperti Amerika Serikat, Australia, Malaysia, Jepang, Singapura, Prancis, Inggris, Papua Nugini, Timor Leste, India, Kanada, Selandia Baru, dan Korea Selatan. Setiap negara yang ikut serta dalam Super Garuda Shield 2022 menjalani serangkaian skenario latihan, seperti latihan lapangan, operasi amfibi dan penyerbuan, operasi udara dan latihan perebutan lapangan udara, latihan operasi
